About the University

Kalasalingam Academy of Research and Education was established in the year 1984 by Kalasalingam and Anandham Ammal. The university offers 28 U.G courses, 44 P.G courses and Ph.D programs in various disciplines. The university is the first institution in India to offer the Six year integrated bachelor degree program in Engineering for speech and hearing impaired students.

The university has signed MoU with foreign universities, Research Organisations and industries with an objective of promoting research and development. The university is accredited by National Assessment and Accreditation Council, (NAAC), Bangalore, with A grade with CGPA of 3.11.

About the Department

The Department of Electronics and communication Engineering was instituted in the year 1993 to offer a 4-year degree program affiliated to Madurai Kamaraj University.

Presently the department is offering B.Tech in Electronics and Communication Engineering, M.Tech in Digital communication and Networking M.Tech in VLSI Design. In addition to this, the department is offering Ph.D program. Recently B.tech ECE program got accredited by NBA (National board of accreditation) for 3 years under Tier I category (2015-2018). The department has been selected as the DST-FIST sponsored department with 42 lakhs funding from Department of Science and Technology, New Delhi to establish center for Signal Processing and VLSI Design.

About the Seminar

This era has seen explosive growth in electronic messages that are communicated through Internet (insecure channel) & secure transmission of messages has become a crucial task. Modern cryptography plays a key role to provide security over Internet. One main goal of Modern cryptography is to guarantee secure communication

through an insecure channel even in the presence of powerful third parties called intruders or adversaries. Our aim of the seminar is to bring all researchers in this field under one premise to build a community. The seminar includes keynote sessions to cover broad spectrum of network security and related areas. The seminar also invites original research contributions in all aspects of network security and related areas.

Call for Papers

Research papers are invited in the following areas but not limited to

- Public Key Systems
- Signature Schemes
- Cryptanalysis
- Embedded System Security
- Image Security
- Security in Grid Computing
