## Learning Management System (LMS)

### Counselling Process

**Mode of Counselling :-** Online

**Brief describe the provision in LMS to be used by HEI :-**

The LMS used in KARE has the following provisions for the students: • Announcement Section – The information's related to different topics and assessments can be seen by the students when contents are uploaded in the respective sections for the course being registered. • Discussion Forum – The queries raised by the students can be answered by the faculty or any student who have registered for the course. • Course Materials section – The materials like recorded videos, power point presentation, audio file and any drive link uploaded by the course teacher can be seen under this section. There is a provision to download the materials. The students can see the unit-wise contents materials in this section. • Assessment Section – It includes a practice quiz section for ungraded quiz consists of MCQ, and True/False type questions. The practice quizzes can be submitted multiple times before the deadline. This section also has assessment quiz of MCQ with single / multiple correct choices, True/False, and short answer questions. This type of quiz can be submitted only once before the deadline. There is an assignment sub-section for submitting the answers to the assignment questions as a file upload. The uploaded contents are downloadable for the faculty and marks are entered by the faculty after evaluating the submission. The students can see the marks awarded for the submission in the report section. • Report Section – The students can see the report of marks obtained in different quizzes and assignments in this section.

**Briefly write how the Learning Management System (LMS) will ensure the following: (provide a demo link, if available) :-** <http://mooc.kalasalingam.ac.in>

Assessment mechanism	The assessment includes quizzes and assignments. The quiz consists of three types of questions: Multiple choice question with single answer or multiple answers, True or False and short descriptive type questions. The questions may include an image / a diagram / a coding snippet. The assignment type assessment is for descriptive type/ solving problems involving many steps / case studies / design diagram. For the programming courses, a code can be submitted and it will be evaluated against three test cases. If the code passes all the test cases full marks will be awarded, otherwise zero will be awarded. Every assessment has start end and end date for the submission. All the submissions should be done before the deadline.
Identified technological interface and interoperability	The LMS is a web application and it is accessible through computers / laptops and any hand held devices.
Learner's Authentication Requirements	Every learner needs to provide name, college , department name, required username, password, contact number, and email-ID at the time of registration. After successful registration, learners can access the course by providing username and password.
Learner Registration - through a web application	The students can do registration for the courses at mooc.kalasalingam.ac.in.
Active Engagement of the Learners along with Analytics for active engagement of learners and Reporting	The report section in the LMS will give detailed question-wise report, topic-wise report and summary report.
Payment Gateway –using Digital Payment system	Yes
Tracking the delivery of a Course or programme	Yes
Technical Know-how or Skills Requirements	The course handling faculty will update the LMS with the delivered content and attendance of the students in LMS.

1	Yes	Kalasalingam Academy of Research and Education	Anand Nagar, Krishnankoil 626126- Srivilliputtur- 626126- Tamil Nadu	Examinations both sessional as well as end semester for the online programs will be conducted and monitored directly by office of the Controller of Examinations. 'KARE Online Proctored Exam' (KARE-OPE) System provides an advance and secured platform to conduct secure, transparent and credible online examinations. KARE-OPE employs multiple levels of security to ensure only desired candidates' access and take Examinations. 1. Proctor Mode – Candidate should install the 'proctor application' which will restrict navigation to other WebPages or any other applications and disables the copy and paste option during the examination. 2. Secure Access – Candidate get entry to the system using login credential and each user will be able to see the examination during scheduled time only. 3. Audit Log Report - Provides a detailed audit logging facility where the activities like Login, Logout, exam access, question navigation, and answer responses can be monitored with a geo-tagged application. 4. The attendance of the Candidate shall be reckoned through Artificial Intelligence based techniques in order to identify and authenticate using Government issued identity cards for Indian learners and Passports for International learners. 5. Since the examination is conducted in proctored mode, faculty members are appointed as invigilators and examination observers to ensure the transparency and credibility of the examinations. 6. Invigilators have access to videos and live writing screens of the individual Candidates' attempting the examination. 7. Before the start of the exam, invigilators have to ensure all the students have the required arrangements needed to write the exam. 8. Once all the Candidates have reported to the invigilator in online at stipulated time, the invigilator enables the examination for the entire candidates after giving the instruction to be followed during the examinations. 9. The invigilator has the option to start, pause, and stop at any time in between the examination. 10. The administrator can access/view number of ongoing examinations/ active students /missing students/ students not finished the test, Current question position, etc. 11. The entire examination data such as Questions and submitted answers are transferred and stored in a secured encrypted format. Also communication between the server and examination client is encrypted with SSL (https) mode of communication. 12. Types of Exams which can be conducted a) MCQ Proctored Exam - AI-Based video monitoring by Invigilator during the exams. b) Proctored Descriptive exam- conducted in the same portal by typing the descriptive answers or they can write in paper and upload the written answer papers using a QR code which is created by a unique secured link created by the system which is only available for that session. Using the same, QR coded student has to scan the QR code that will redirect to the photo capture page. In this, he/she can take the photo of the written pages and can submit the same to the portal. Once submitted, it gets reflected in the system immediately, and he/she can cross-check what is the uploaded content (preview mode). 13. Once the exam timing is over, the system automatically forwards the decrypted answer sheet to the examiner to evaluate the paper in online mode.
