### **Pledge to Use Renewable Energy**

1. I will neither waste energy nor let others to do the same. I will initiate the quest for use of renewable energy by myself, as well as by my family members, by my friends in locality and my colleagues at work place.
2. I will use Alternative energy sources to replace the use of fossil fuels because they will make for a cleaner environment, they are unlimited and renewable.
3. We pledge that 50 per cent of our capacity will come from non-fossil fuels by 2030. This trajectory will be adhered to.
4. To avoid the worst impacts of climate change, emissions need to be reduced by almost half by 2030 and reach net-zero by 2050.
5. We will ensure the access to clean and affordable energy, which is key to the development of agriculture, business, communications, education, healthcare and transportation.
