THE - Impact Rankings 2025

17 PARTNERSHIPS
FOR THE GOALS

**Strengthen the means of implementation and revitalise
the Global Partnership for Sustainable Development**

17.4.1 Education for SDGs commitment to meaningful education

Commitment to meaningful education for the Sustainable Development Goals (SDGs) in universities involves integrating sustainability into all aspects of the educational experience.

Developing courses that address the SDGs from multiple perspectives, encouraging collaboration between different academic departments.

Implementing service-learning opportunities that connect classroom learning with community service, allowing students to apply their knowledge to SDG-related challenges.

Establishing partnerships with NGOs, government agencies, and businesses to provide students with insights into real-world challenges and solutions related to the SDGs.

Common Courses to all students

Kalasalingam Academy of Research and Education is committed to promoting sustainability values among all its students. For example, the following two core courses are available to all undergraduate programs:

- Environmental Engineering
- Professional Ethics

The syllabus for these courses varies across different programs, such as engineering, science, and liberal arts, reflecting the specific content relevant to each field.

Below is a sample of the detailed syllabus for the engineering stream, along with information on course delivery.
