Disinvestment Policy

Policy Statement:

Objective and Scope

To move towards self-reliance in electrical power requirement by suitably investing in Solar system, wind energy conversion system and Bio mass power plant.

Policy Framework

a) Solar PV system installation:

1. Install 2 MW of solar power by the year 2030.
2. Plan for 50% annual growth in solar power capacity by the year 2030.
3. Plan to install solar operated electrical equipments in academic blocks, newly constructed hostels, staff quarters and guest house.

b) Biomass power plant:

1. To plan for campus waste based biomass power generation system by 2028 so that there will be zero solid waste disposals.

c) Wind Energy Generation:

1. Set up a small wind power plant on campus by 2026.
2. Plan to double wind power – electrical generation capacity every three years from 2026.

d) Electrification of Vehicles:

1. Planning for Institute operated vehicles (buses / vans / cars / two wheelers) inside the campus shall be Battery Electric Vehicles (BEVs) or Fuel Cell Electric Vehicles (FCEVs) by 2030.

The Special Officer shall ensure the policy implementation and shall report the plan, progress and updation / implementation to the Vice Chancellor periodically (once in every 3 months).
